

# President

Diego Andreis is the Managing Director of Fluid-o-Tech Srl, a family business with more than 60 years of experience in the engineering and manufacturing of positive displacement pumps and fluidics systems for the automotive, medical, foodservice and industrial field. The

company has a direct presence in Italy, UK, USA, China, Japan. Quality and innovation are the company strategic pillars therefore 6% of revenue was invested in R&D involving 15% of its staff. Fluid-o-Tech has been awarded with the National Award for Innovation in 2014, 2016 & 2017.

After the degree in Engineering at Politecnico of Milan, Diego has studied at SDA Bocconi, Harvard Business School and London Business School feeding his passion about innovation in the field of management and technology.

Diego lived for two years in Beijing launching Fluid-o-Tech Asia and is founder of F-Lab (an innovation centre that leverage open innovation dynamics to accelerate the innovation process where highly qualified engineers and designers work together with universities, companies and experts), Dolphin Fluidics (which designs advanced fluidic systems based on the integration of non-conventional technologies) and VITA (who aims to revolutionize the food service industries).

In 2015 Diego became President of the Assolombarda Mechatronics Companies Group and Vice President of Federmeccanica, in charge of relations with multinationals and large enterprises in Europe.

In September 2016 Diego was appointed President of the European Tech & Industry Employers' organization Ceemet, representing 200,000 companies. He was unanimously re-elected in September 2018 for a 2<sup>nd</sup> two year term.

Since 2016 he is board member of AFIL (Smart Factory Regional Cluster) and member of Aspen Institute Italia.
